

3-Monthly Report 2015

Profile

Delticom is Europe's leading online tyre retailer. Founded in 1999, the Hanover-based company has more than 100 online shops in 42 countries, among others [ReifenDirekt](#), [www.mytyres.co.uk](#) in UK and [www.123pneus.fr](#) in France, as well as the *Tirendo* shops which enjoy a high level of recognition, not least due to its brand ambassador, Sebastian Vettel. Delticom offers a wide range of products for its private and business customers: more than 25,000 models from over 100 tyre brands for cars, motorcycles, commercial vehicles and buses, but also complete wheels, motor oil, replacement parts and accessories.

Customers enjoy all the advantages of modern E-Commerce: convenience in order placing, quick, efficient delivery, clear cost information and, last but not least, low prices. The products are delivered in two business days to any address the customer chooses. Alternatively, Delticom delivers the tyres to one of more than 41,000 service partners (9,500 in Germany alone) for professional fitting directly on to the customer's vehicle at a reasonable price.

Economic Environment

Economic developments In the first quarter, the European economy registered slight growth on the back of a weak euro and low oil prices, fuelled by exports. The economic uptrend and lower rate of unemployment in many countries also led to an improvement in consumer confidence in Europe in the first quarter of 2015, especially in Western and Southern European countries. However, the degree of recovery differs greatly from country to country. The situation in Eastern Europe continues to be dominated by developments in Ukraine and economic sanctions against Russia. In Germany, the labour market continued to benefit from the strong economy. Thanks to high wage levels and low energy prices, the purchasing power of private households remained robust.

Tyre markets According to initial estimates by industrial associations, the replacement tyre business in Germany in the first quarter of 2015 was unable to continue the strong trend seen at the start of 2014. While winter tyre sales were up by 4.4 %, summer tyre sales were down by almost 15 %. This was due to the changeable weather, which led consumers to delay changing their tyres. In the previous year's period, the summer tyre business got off to an early start thanks to spring-like temperatures in March.

Business performance and earnings situation

Tirendo On 16.09.2013 Delticom acquired all shares in the Berlin-based online tyre retailer Tirendo Holding GmbH and its subsidiaries. Tirendo Holding GmbH and Tirendo Deutschland GmbH (both companies hereinafter collectively referred to as Tirendo) are fully consolidated in the Delticom Group from the date of acquisition (16.09.2013).

Revenues

Group Delticom, Europe's leading online tyre retailer, generates the bulk of its revenues through sales of replacement tyres for cars, motorcycles, trucks and industrial vehicles.

In Q1 15 the company recognised revenues of € 111.3 million, an increase of 18.1 % after € 94.3 million in the prior-year period.

The chart *Revenues trend* summarises the development of the quarterly revenues.

Revenues trend

quarterly revenues in € million

E-Commerce

Revenues in the E-Commerce division with its 188 online shops were up year-on-year by 18.5 %, from € 91.9 million to € 108.9 million. The share of divisional revenues amounted to 97.8 %, compared to 97.4 % in the previous year.

Customer numbers

In Q1 15 the company was able to acquire a total of 207 thousand new customers (Q1 14: 197 thousand, Delticom and Tirendo accumulated, +5.2 %). In the course of the financial year 2014, Delticom modified the way in which it calculates its customer numbers. As a consequence, the previous year's figure differs from the figures stated in the 3-Monthly Report 2014. Customers who purchased for the first time at both Delticom and Tirendo in Q1 15 were offset. In Q1 15 a total of 238 thousand existing customers (Q1 14: 200 thousand, +19.2 % - based on new calculation methodology) made repeat purchases at Delticom group.

Regional split

The group offers its product range in 42 countries. Revenues in EU countries totalled € 83.9 million (+13.2 %). Across all non-EU countries the revenue contribution for Q1 15 was € 27.5 million (+36.2 %).

Key expense positions

Cost of goods sold

The cost of goods sold (COGS) is the largest expense item; it considers the purchase price of sold tyres. Group COGS increased by 21.9 % from € 71.2 million in Q1 14 to € 86.8 million in Q1 15.

Personnel expenses	On 31.03.2015, the company employed a total of 154 employees. 137 of them (including trainees) worked for Delticom and the remaining 17 for Tirendo (Q1 14: 147). In the reporting period Delticom group employed an average of 140 staff members (Q1 14: 278). Personnel expenses amounted to € 2.2 million (Q1 14: € 3.6 million, –39.6 %). This decrease is mainly due to the significant workforce reduction at Tirendo. The personnel expenses ratio in the first quarter came to 2.0 % (staff expenditures as percentage of revenues, Q1 14: 3.9 %).
Warehousing	Rents and overheads remained with € 1.8 million nearly unchanged (Q1 14: € 1.8 million, –0.1 %). Stocking costs amounted to € 1.1 million, after € 0.9 million in Q1 14 (+17.8 %).
Transportation costs	Among the other operating expenses, transportation costs is the largest line item. The increase from € 7.2 million by 34.1 % to € 9.7 million is mainly due to sales country-mix and the higher business volume. The share of transportation costs against revenues increased in the reporting period from 7.7 % in Q1 14 to 8.7 % in Q1 15.
Marketing	Group marketing expenses in Q1 15 were increased by 9.9 % from € 4.8 million to € 5.3 million to push an early start into the summer tyre business. Q1 15 marketing spent with 4.7 % of revenues was lower than last year's 5.1 %.
Depreciation	Depreciation for Q1 15 remained with € 2.1 million nearly unchanged (Q1 14: € 2.1 million, +1.4 %).

Earnings position

Gross margin	The gross margin for the first quarter was set to 22.0 %, after 24.5 % in Q1 14.
Other operating income	Other operating income for the first quarter was € 4.2 million (Q1 14: € 3.0 million), thereof gains from exchange rate differences to the order of € 2.1 million (Q1 14: € 0.6 million). FX losses are accounted for in the other operating expenses. In Q1 15 the FX losses amounted to € 2.3 million (Q1 14: € 0.4 million). In the reporting period, the balance from FX gains and losses was € –0.1 million (Q1 14: € 0.2 million).
Gross profit	Altogether, the gross profit increased in the reporting period by 10.2 % year-on-year, from € 26.1 million to € 28.7 million. Gross profit in relation to total income of € 115.6 million (Q1 14: € 97.3 million) totalled 24.9 % (Q1 14: 26.8 %).
EBITDA	Earnings before interest, taxes, depreciation and amortization (EBITDA) for the reporting period came in at € 0.8 million (Q1 14: € 2.4 million). The 68.0 % drop is mainly attributable to the volume-related increase in costs. EBITDA margin for the period under review stood at 0.7 % (Q1 14: 2.5 %).

EBITDA

quarterly, in € million

EBIT Q1 15 earnings before interest and taxes (EBIT) contracted to € -1.4 million (Q1 14: € 0.3 million). This translates into an EBIT margin of -1.2 % (EBIT in percent of revenues, Q1 14: 0.3 %).

Financial income Financial income for the first three months amounted to € 8 thousand (Q1 14: € 8 thousand). Financial expenses were € 96 thousand (Q1 14: € 271 thousand). The financial result totalled € -88 thousand (Q1 14: € -263 thousand).

Income taxes In the reporting period, deferred taxes led to tax income of € 50.2 thousand. In Q1 14, the expenditure for income taxes was € 10.5 thousand.

Net income Consolidated net income shrank in the reporting period from € 20 thousand in Q1 14 to € -1,390 thousand.

Financial and assets position**Balance sheet****Inventories**

Among the current assets, inventories is the biggest line item. Since the beginning of the year stock grew by € 17.4 million or 31.0 % to € 73.6 million (31.12.2014: € 56.2 million). This corresponds to a share of 39.3 % of total assets (31.12.2014: 34.2 %, 31.03.2014: 42.7 %).

Receivables

Trade receivables usually follow the seasons, but reporting date effects are often unavoidable. At the end of the quarter, the accounts receivable amounted to € 23.0 million (31.12.2014: € 14.5 million, 31.03.2014: € 20.2 million).

Payables

In the wake of this inventory build-up, the accounts payable increased from an opening balance of € 75.9 million by 27.3 % to € 96.6 million.

As of 31.03.2015 the balance sheet total amounted to € 187.3 million (31.12.2014: € 164.0 million). Table *Abridged balance sheet* illustrates the low capital intensity of the business model.

Significant events after the reporting date

Dividend

The Annual General Meeting on 05.05.2015 has decided on a dividend of € 0.25 per share, a decrease of 50.0 % compared to the previous year's dividend of € 0.50 per share.

Risk Report

As a company that operates internationally, Delticom is exposed to varying types of risk. In order to be able to identify, evaluate and respond to such risks in a timely fashion, Delticom put in place a risk management system early on. The system is based on corporate guidelines for the early risk detection and risk management.

An outline of the risk management process is presented in the Annual Report for fiscal year 2014 on pages 46ff, together with a list of key individual risks. Compared to the Annual Report 2014, the risk situation has not changed materially. Individual risks endangering the company do not exist, and considered together, the aggregate risk does not pose any danger to Delticom's going concern.

Outlook

Economic environment

According to the International Monetary Fund, the global economy is only staging a gradual recovery. Not all countries have digested the impact of the global economic and financial crisis.

Experts forecast stronger economic growth in Europe compared to 2014. However, the degree of recovery differs greatly from country to country. Although reform countries such as Spain and Portugal have since registered slight growth, unemployment remains high despite subsiding unemployment figures.

Due to the currently weak euro, the economy in the eurozone is primarily benefiting from rising exports. In view of the declining unemployment rate, consumers are now also more optimistic. It is still unclear to what extent the eurozone has laid the foundation in the last months for sustainable recovery.

Tyre retail

Unlike the previous year, the tyre retail business was not boosted by an early start to the summer business at the beginning of the reporting year. Only the coming months will show to what degree the forecasts of individual market experts regarding a slight recovery in the replacement tyre business will materialise in the current year. For Germany, the German association of tyre dealers (BRV, Bundesverband Reifenhandel und Vulkaniseurhandwerk e.V.) cautiously estimates that there will be no widespread improvement in the situation in 2015 compared to the previous year.

The fourth quarter is an important quarter in tyre trade due to the winter business. As a result of the mild winter in 2014, excess inventories for winter goods cannot be ruled out in the supply chain. If the coming winter also turns out to be mild, sales prices could come under pressure as well.

Guidance unchanged

The first quarter only has a comparatively small importance relative to the whole year and in particular with regard to profitability. Delticom will continue to tenaciously strive for cost optimization in 2015 to reach the full-year guidance.

At the current time, there is still major uncertainty when it comes to market and price development in the European replacement tyre business in 2015.

Revenues

The management of Delticom is planning on increasing sales volume in 2015 to exceed that of the previous year. In the case of a deflationary price climate Delticom considers it conceivable that this increase in sales will not necessarily result in a corresponding increase in revenues. For fiscal year 2015, the management continues to aim for revenues in absolute terms at least on par with fiscal year 2014.

EBITDA

An increase in unit sales results in a rise in volume-based costs. Should these rise more sharply in 2015 than revenues, a positive volume effect could have a negative impact on earnings. Irrespective of this, we are aiming to match at least 2014 EBITDA in 2015 in absolute terms.

Notes to the Consolidated Interim Financial Statements of Delticom AG

Reporting companies

Delticom, Europe's leading online tyre retailer, was founded in Hanover in 1999. With 188 online shops in 42 countries, the company offers its private and business customers a broad assortment of car tyres, motorcycle tyres, truck tyres, bus tyres, special tyres, bicycle tyres, rims, complete wheels (pre-mounted tyres on rims), selected replacement car parts and accessories, motor oil and batteries. Further information about the reporting company can be found in the chapter *Business Operations* and in the chapter *Organisation* of the annual report 2014.

Employees

From 01.01.2015 to 31.03.2015 Delticom had an average of 140 employees (thereof 6 apprentices and interns). The calculation is based on full-time equivalents, thus taking into account the actual work hours.

Seasonal effects

In many countries, business with car replacement tyres depends to a large extent on the seasons with their different weather and road conditions. For example, the business in the northern parts of Europe and in German-speaking countries is characterized by two peak periods - the purchase of summer tyres in spring and winter tyres in early winter. Volume is generally weaker in the first quarter, as most winter tyres are bought and fitted with the first snow, and thus before the end of the year.

The second quarter is characterized by strong sales: the weather in April and May is usually quite warm and car drivers buy their new summer tyres.

The third quarter is a transitional quarter between the summer and winter business, with unit sales again being somewhat weaker.

In most European countries, the last quarter generates the highest sales as car drivers face difficult road conditions and become aware of the fact that they need new tyres.

Principles of accounting and consolidation, balance sheet reporting and valuation methods

Delticom's consolidated interim financial statements as of 31.03.2015 were prepared according to the *International Financial Reporting Standards* (IFRS), as prescribed by the International Accounting Standards Board (IASB), that were mandatory according to the European Union (EU) Directive. All applicable and mandatory IFRS standards on the balance sheet date were applied, especially IAS 34 (Interim Financial Reporting).

To the extent that there were no changes to standards requiring first-time application, the accounting, valuation and calculation methods explained in the 2014 Consolidated Financial Statements have also been applied in this set of interim financial statements, and apply correspondingly.

These interim financial statements contain all clarifications and information required for annual financial statements, and can therefore be read in conjunction with the annual financial statements as of 31.12.2014.

The Annual Report 2014 is made available on the Delticom website in the section *Investor Relations* or can be downloaded directly using the following link:

www.delti.com/Investor_Relations/Delticom_AnnualReport_2014.pdf

During fiscal year 2014 management reporting was changed. There is no differentiation between the reporting of the previous E-Commerce and Wholesale segments any longer. Delticom is therefore a one-segment company; this change means that the segment information previously reported in the interim reports is no longer presented.

Group of consolidated companies

The group of consolidated companies comprises Delticom AG as controlling company, eight domestic and five foreign subsidiaries, all fully consolidated in the interim financial accounts.

Due to its negligible impact on Delticom's net assets, financial position and results of operations, the following companies are not consolidated, but instead recognized as a financial instrument pursuant to IAS 39.

- 000 Delticom Shina, Moscow (Russia) of which Delticom owns 100 % of the shares
- Tirendo France SAS, Paris (France) - 100 % subsidiary of Tirendo Holding GmbH
- Tirendo Netherlands B.V., Den Haag (Netherlands) -100 % subsidiary of Tirendo Holding GmbH
- Tirendo AT GmbH, Vienna (Austria) - 100 % subsidiary of Tirendo Holding GmbH
- Tirendo Switzerland GmbH, Zug (Switzerland) - 100 % subsidiary of Tirendo Holding GmbH
- Tirendo Poland sp.z.o.o., Warsaw (Poland) - 100 % subsidiary of Tirendo Holding GmbH

Compared with the Annual Report for fiscal year 2014 there were no changes in the group of consolidated companies.

Unusual items

No significant matters have arisen that affect the assets, liabilities, equity, result for the period, or cash flows, and which are unusual for Delticom AG's business due to their type, extent or frequency. Business trends are explained in the interim management report.

Profit and loss statement, balance sheet and statement of cash flow

Detailed information with regards to business trends and the profit and loss statement can be found in the chapter *Business performance and earnings situation* of the interim management report. The

chapter *Financial and assets position* presents additional Information concerning the balance sheet and the cash flow statement.

Earnings per share

Basic earnings per share totalled € -0.11 (Q1 14: € 0.00). The diluted earnings per share totalled € -0.11 (Q1 14: € 0.00).

Calculation of earnings per share

Pursuant to IAS 33, undiluted (basic) earnings per share are calculated by dividing the consolidated net income of € -1,305,199.33 (previous year: € 20,411.41) by the 11,945,250 weighted average number of ordinary shares in circulation during the financial year (previous year: 11,855,440 shares).

Up to 30.04.2014 were given 15,810 potential shares (financial instruments and other agreements which entitle their holders to subscribe to ordinary shares) from the tranche dated 22.11.2007, 37,500 potential shares from the tranche dated 08.05.2008, 17,500 potential shares from the tranche dated 25.11.2008 and 15,000 potential shares from the tranche dated 30.03.2009.

The exercise prices for the tranches 22.11.2007, 08.05.2008, 25.11.2008 and 30.03.2009 were below the average share prices since the options were issued. As a result all tranches are included in the diluted earnings per share.

The calculation of the diluted earnings per share was based (in accordance with IAS 33) on net income after taxes totalling € -1,389,719.76 (previous year: € 20,411.41) and the weighted average number of shares outstanding during the fiscal year and the number of potential shares from options totalling 11,945,250 shares (previous year: 11,945,250 shares).

Dividends

At Delticom's Annual General Meeting on 05.05.2015, the Management Board and the Supervisory Board will propose a dividend of € 0.25 per share (previous year: of € 0.50).
